Your multimedia space

WHY STUDIO CESARSKA?

Experienced staff

Broadcasts to online platforms and recording

Professional equipment

Convenient location in the City Centre

DESCRIPTION

Together with the experienced multimedia company SVOBODA, we've created an extremely intimate, atmospheric, and professional studio space, located on the 4th floor of the historic Dyrekcja building.

On 207m2 Studio Cesarska enables the implementation of all types of online and hybrid events. High-quality audio equipment was installed in the studio space, including P2mm high resolution LED screen in a semi-arc, green screen, 4k cameras, stage lighting, mixers and media servers, atmospheric loft lighting, and all equipment necessary for online events. At the client's request, the studio can be retrofitted.

The clients of Studio Cesarska have at their disposal a fully equipped kitchenette and an observation deck, which can create an additional camera plan with a view of the Gdańsk Cranes. The remaining_spaces of the Imperial Shipyard or the conference and event spaces of the Dyrekcja building can also be used as further camera plans .

The studio guarantees its availability 7 days a week, 24 hours a day.
